A. FRED WOODWARD, M. D.

"This is, without exception, the most comprehensive and intelligible work published on the class of diseases of which it reats. A violing all technical terms it addresses itself to the reason of ils readers. It is free from all objectionable matter, and no parent however frastidious, can object to placing it in the heads of his sons. The author has devoted many years to the treatment of the various zomplaints treated of, and with too little breath to pulf, and too little presumption to impose, he has affered to the world at the merely non-nal price of twanty-live cents the fruits of some twenty years most successful practice."—Harain.

"No teacher or parent should be without the knowledge Imparted in this invaluable work.] It would save years of pain, mortification and sorrow to the youth under their charge."—Propus's Apvocars.
